My Lord wants money.

extraneous necessities for as we take

that it was in order to a service to y^r L^{ty}. and
at I did in it, and with all the power of my
life, as fear at time, & my want of money
I would give me leave. I am very consid-
erant that no person in the world could
have drawn me him to a resolution of y^e
kind, besides my self. I promised him
all what I had in charge to do, to be caused
he saw no effects of. He knew not at
think, but I still kept him up in the
Confidence I had that all should be as
was said. I sent to y^r L^{ty}. from time
to time and I was in a Post, where in
I did not see y^r L^{ty} so give him some
in answer. But it was all in Vain.
I never could get that, nor a poor com-
pensation of all I sent. I would in necessity
there was (if y^r L^{ty}. would be served)
for him to have a Judicium supply for he
could not go without his presence was
wholly necessary for that end, for want
of some money. I would your L^{ty} of
